Tabling Interview Script & Questions

Using the Abortion Procedure Videos: www.abortionprocedures.com

GOAL: Change minds on abortion by showing the Abortion Procedure.

A FEW IMPORTANT POINTERS/NOTES:

- Dress Modern/Trendy/Classy - beauty attracts and people will trust you.
- Be kind - NOT aggressive or pushy. You are sharing facts and educating people.
- The content moves people to change their mind, not you - you get to help facilitate and be a part of the conversation. You are simply a guide.
- Protect Life Michigan recommends you use the D&E Procedure video (2nd trimester)

QUESTIONS & SCRIPT:

“Would you like to vote in our poll for a free (cupcake/cookie)?”

If yes, **“Great! We’re asking what people believe about abortion and reproductive rights”.**

What do you think about abortion?

Do you consider yourself pro-life, pro-choice, or neither?

If pro-life: **Do you think there should be exceptions, like in cases of rape, incest, or life of the mother?**

If pro-choice: **Do you think there should e restrictions, such as only allowed in the first trimester, or only allowed in the second trimester?** If they say, “no restrictions”, then ask, **“Do you think abortion should be legal after birth?”**

“I’m going to share a 3 minute video and I’d like you to share your reaction after watching it. This video is narrated by an abortion doctor and shows an animated procedure, but it isn’t graphic.”

Stop the video once the “Risks & Adverse Effects” screen comes up.

In one work, tell us your reaction to the video:

Now, please elaborate.

Did you learn anything new about the abortion procedure that you did not know before?

Did the video change your mind at all or make you think differently about abortion?

Do you have any other thoughts you would like to share?

If they seem interested in continuing the conversation, continue by engaging in some pro-life apologetics!
